

## SOHO LAVATORY PAN AND LOW LEVEL CISTERN

The Soho lavatory pan goes well with any of the French basins with squarer detailing. It is shown here with a low level cistern and seat in black painted wood. It can also be used with a high level, close coupled or concealed cistern. It is available as an S or P Trap. Please note that the cistern we supply has a side flush handle, not a top flush button as shown in the drawing below.

Minimum distance from wall to front of pan: 725mm  
 Maximum distance from wall to front of pan: 800mm

Lowest height at which cistern can be mounted on the wall: 635mm (bottom of vessel) 1000mm (top of vessel not including lid)

Maximum height at which cistern can be mounted on the wall: 795mm (bottom of vessel) 1160mm (top of vessel not including lid)
